

Emergency Incident & Make-Safe Report

RapidShield job RS-260719-044

Report summary

Insurer	Southern Cross General Insurance (fictional)
Policy number	HHP-884291
Claim number	CLM-2026-10001
Named insured	Daniel Morgan
Risk address	42 Example Crescent, Glenhaven VIC 3999
Incident	Storm and water damage - 18 July 2026
Claim lodged	21 July 2026
Report provider	RapidShield Emergency Services Pty Ltd (fictional)
Job number	RS-260719-044
Attendance	19 July 2026, 8:10 am to 10:25 am

Observations on arrival

The family room showed active residual dripping near the rear roof valley line, a bowed ceiling sheet approximately 1.2 m by 0.8 m, saturated insulation and moisture readings above instrument range at two ceiling points. Water marks extended down the eastern wall behind the television. The remainder of the dwelling remained habitable.

External observations

From ground and ladder-edge inspection only, technicians observed two displaced concrete roof tiles and leaf/debris accumulation in the rear valley. Older sealant was visible around valley flashing. No destructive inspection was undertaken. Conditions were wet and access was restricted.

Make-safe actions

Action	Outcome
Installed temporary roof tarpaulin over rear valley zone	Area temporarily weather-protected
Removed loose saturated insulation from immediate ceiling opening	Bagged and retained on site
Isolated affected family-room electrical circuit	Tagged pending electrician inspection
Established one air mover and one dehumidifier	Moisture stabilisation commenced
Moved television and media console to dry room	No functional testing performed

Weather information

Technician notes record heavy rain and strong gusts overnight. The crew did not independently verify Bureau of Meteorology data. The insured reported that the first visible water entry occurred at approximately 7:40 pm on 18 July 2026.

Photographic index

Image ref	Description	Timestamp
RS-01	Rear roof valley viewed from ladder edge; displaced tiles	19 Jul 2026 08:36
RS-02	Debris and aged sealant at valley flashing	19 Jul 2026 08:38
RS-03	Family-room ceiling bowing and staining	19 Jul 2026 08:49
RS-04	Moisture meter at eastern wall	19 Jul 2026 09:02
RS-05	Television rear panel and wet console surface	19 Jul 2026 09:11

Limitations

This is an emergency attendance record, not a causation opinion. Concealed damage, the age of defects and whether work is insured require further assessment. The temporary cover should be checked after further severe weather.
